WINTER 2024

Families in Partnership is a collective of parent carers of children with a wide range of special educational needs and disabilities. Our aim is to make sure that parents' voices are heard when it comes to planning and decision making about services for our SEND children and young people in Worcestershire.

By creating a safe and protective environment for parent carers to share their experiences, the forum can help to enable change or improvements when needed and promote those areas of services when they are working well, through positive dialogue and co-production.
