

What happens if someone gets poorly with Coronavirus?

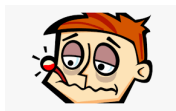

Coronavirus can make people poorly and some people very poorly.

For lots of people coronavirus will be like having flu.

You might have:

- A fever- this means you feel hot

- A cough

- Sometimes you have no taste or smell

- Sometimes people find it hard to breathe

Lots of people get better at home.

But for some people they will get very poorly.

This means they will have to go to hospital.

The nurses and doctors will try to help them get better.

Everything will be okay.
