

What is a Coronavirus test?

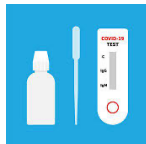

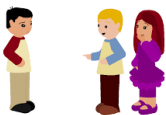

If you are poorly you need to tell and adult.

You might have to have a coronavirus test.

You might have to go to test centre to have a test.

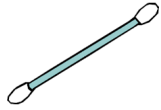

You might be able to have a test at home.

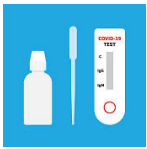

You will need to have to a mouth swab.

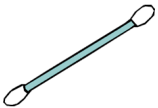

You will need to have a nose swab.

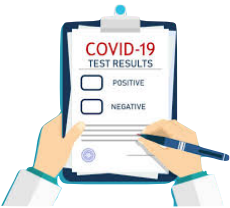

A swab is like a large cotton bud.

The test will be okay. An adult will help you.

The swab might tickle but the tests will be quick.

The test results will help keep everyone safe and healthy.
