Model Finance Policy for Worcestershire Schools **(Revised September 2024)**

Introduction

"Sound financial management and controls are essential to schools because they provide an effective framework for financial planning and accountability and safeguard the use of public funds."

Keeping Your Balance – Standards for financial management in schools

An up to date and regularly reviewed Finance Policy is an essential document to help with financial management in schools. It also provides evidence and information for the completion of the SFVS.

This "model" Finance Policy has been drafted in discussion with Internal Auditors for Worcestershire's Maintained Schools. It is based on "Keeping your Balance" recommendations and exemplary Finance Policies for our schools.

You are not required to adopt the model policy, however if you do, you must ensure that the policy: -

- i) **is discussed, reviewed, and approved by your Governing Body**
- ii) **reflects what is happening in your school.**
- iii) **is communicated to all relevant parties.**

If you do not adopt this policy, you should create your own version and send this to the Schools Finance Team annually, for review. **It is also recommended that you review your current Finance Policy against the model** and improve it where it falls below the model standard. You may consider it is easier to adopt the model and tailor it to suit your individual school circumstances.

For further information on this Finance Policy please email the Schools Finance Team, sft@worcestershire.gov.uk

Policy

A Governance

The Governing Body is responsible for the school's overall direction and strategic management. This involves determining the guiding principles within which the school operates and making decisions, for example, how to spend the school's delegated budget. It is legally required to agree the school's annual budget plan.

The governing body has a strategic role to realise its mission as a Community school and has responsibility for setting educational and financial priorities, for oversight of sound financial management and for ensuring the budget is managed effectively. It is also responsible for ensuring the school meets all its statutory obligations and, through the Headteacher, complies with the LA's financial regulations or standing orders.

- **A1** The Headteacher is responsible on a day-to-day basis for the management of the school's finances within the approved budget in accordance with the Governor's policy on best value, Appendix A and in line with the School Improvement Plan, Appendix B. The Headteacher has no authority to exceed the approved budget and must operate within the financial limits of delegated authority, Appendix D. The roles and responsibilities of the Headteacher and other staff in relation to financial decision-making and administration are detailed in Appendix C.
- **A2** A finance committee has been set up to consider strategic financial issues on behalf of the governing body and its remit and membership is reviewed annually.
- **A3** The financial limits of delegated authority of the governing body are detailed in Appendix D. Details of the Committee structure; constitution and current membership are available from the Clerk to Governors.
- **A4** The governing body has agreed with the Headteacher the minimum frequency, level of detail and general format of the financial information to be provided to it, especially in relation to budget monitoring reports Appendix E.
- **A5** Minutes are taken of all meetings of the governing body and its committees and include all decisions and by whom action is to be taken.³
- **A6** The governing body maintains a register of interests of governors⁴, the Headteacher and any other staff who may influence decisions in any matter concerning the school. This is open to examination by governors, staff, parents, and the LA. "Declarations of interest" is a standing agenda item on all Full Governors and sub-committee meetings.

³ A Guide to taking minutes for meetings of the Governing Body and its Committees can be requested from WCC Governor Services.

⁴ Further guidance and pro-forma for registering business interests are available from WCC Governor Services & Resource document R81 General Code of conduct and registration of interests for senior staff (2005) FMSIS.

B Financial Planning

The Headteacher and Governors have a clear view of how they intend to use the school's resources in future years to achieve their educational priorities.

- **B1** The school has a School Improvement Plan (SIP), which includes a statement of its educational goals to guide the planning process.
- **B2** The SIP covers in outline the school's educational priorities and budget plans for the next three years, showing how the use of resources is linked to the achievement of the school's goals.
- **B3** The SIP states the school's educational priorities in sufficient detail to provide the basis for constructing budget plans for the next financial year.
- **B4** Any new initiatives are carefully appraised in relation to all costs and benefits and their financial sustainability before being approved by the governing body.
- **B5** The SIP states intended expenditure on any significant changes from the previous financial year.
- **B6** A formal timetable and procedures are drawn up for constructing the SIP and budget to ensure that the governors have time to consider all relevant factors.
- **B7** There is a clear, identifiable link between the school's annual budget and its School Improvement Plan (SIP).
- **B8** The Headteacher presents a draft budget in line with the SIP to the Finance Committee for approval in March/April, for submission to the LA by the 1 May. This should include sufficient detail and supporting information to enable Governors to make an informed decision. The draft budget will take account of the agreed staffing structure, known inflationary and incremental staff increases and known staffing changes for September. It should cover in detail the next financial year and forecasts for the following two financial years, based on realistic estimates of all expected expenditure and income, including grant income, so that planned expenditure does not exceed the available budget.
- **B9** The governing body ensures that the main elements of the school's budget are periodically reviewed so that historic spending patterns are not unhelpfully perpetuated.
- **B10** The Headteacher profiles⁵ the budget to take account of spending patterns taking account of seasonal factors, inflationary factors, and previous trends if appropriate, before approval of the Governing Body.
- **B11** Any budget surpluses are earmarked for specific future needs to ensure that pupils benefit from a planned approach to spending that does not deprive them of resources in any given year. The Governors have agreed a policy on reserves⁶ and this is in accordance with the Local

⁵ Budget profiling is an accounting term meaning a forecast of spending or income at different times during a year. Comparison with it helps managers to detect when the budget starts to get off track and hopefully allows enough time for corrective actions to be taken i.e., it serves as an early warning system.

⁶ The school should have a policy on "reserves" which has been explicitly agreed by the Governing Body, at a level they feel is justified for their school. This should be minuted.

Authority reg⁷. The Governors policy is to hold a reserve not exceeding 8% of the gross annual budget.

- **B12** Once the budget has been discussed and agreed by the Finance Committee, it is presented to the Full Governing Body for consideration and approval before the beginning of the relevant financial year.
- **B13** The Headteacher forwards details of the approved budget to the LA by the 1 May each year. Any subsequent budget changes are enacted in accordance with the Scheme of Delegation and notified promptly to the LA. Those schools in a deficit position will need to submit a deficit recovery plan to the LA with the initial submitted budget on 1 May each year and needs to be approved by the Full Governing Body.

C Budget Monitoring

The Headteacher and Governors regularly monitor income and expenditure against agreed budgets and maintain financial control by reviewing the current position and taking remedial action where necessary.

- **C1** The Headteacher produces regular budget monitoring reports for income and expenditure, including sums committed but not yet paid and outturn forecasts, against the approved budget. The approved budget is the original budget approved by Governors as reported to the LA, plus any additional funding and any approved virements. These reports are reconciled with the finance system.
- **C2** The Headteacher will provide reports to the Finance Committee and the LA on a regular basis in accordance with the agreed timetable and minimum reporting requirements, as detailed in Appendix E. The Headteacher will provide budget monitoring reports to the finance committee at least once a term showing any significant variances against the budget with explanatory notes and, where necessary, remedial action plans including virements.
- **C3** The Headteacher monitors expenditure on the initiatives set out in the School Improvement Plan.
- **C4** Where budget elements have been devolved, departmental budget holders receive, and review reports half-termly (or on request) comparing the amount spent or committed to date against their budgets. The Headteacher monitors these reports periodically and acts where needed.

D Purchasing

The school achieves the best value for money they can from all their purchases, whether goods or services as detailed in the Governors Policy on Best Value,

⁷ WCC challenge schools with excess surplus balances. Using DfE guidelines a school's uncommitted surplus balance should be no more than 8% for Nursery, Primary and Special schools and 5% for Secondary schools of in-year funding. In recognition that there are small primary schools in Worcestershire for which an 8% carry forward would be insufficient, the cost of one full time teacher at the top of the main scale (plus on-costs), is also allowed.

Local Authorities are authorised to claw-back surplus balances that are not permitted under their Scheme for Financing Schools. Permitted balances include prior year commitments; unspent grants and funds for other specific purposes agreed by the Local Authority (e.g. building works). Schools will be able to build up reserves towards projects but cannot defer implementation indefinitely.

Schools with uncommitted surplus balances more than the above limits and not subject to formal re-organisation may be asked to complete pro-forma providing details of how they intend to spend their surplus. Financial records will be examined to see if this happens.

Appendix A. In this context, value for money is about getting the right quality at the best available price. This often means looking further ahead than the immediate purchase, especially when selecting equipment, and considering associated costs such as supplies and maintenance.

- **D1** The school always considers price, quality and fitness for purpose when purchasing goods or services.
- **D2** Prior approval from the governing body is obtained for all expenditure above the limit predetermined by Governors in Appendix D and F.
- **D3** Competitive quotations/tenders are to be obtained wherever possible in accordance with Appendix D and F. Written quotations should be obtained for all expenditure above the limits predetermined by Governors in Appendix D and F unless it is impracticable to do so. In such circumstances, the reasons for not doing so should be reported to the governing body.
- **D4** Where a quotation other than the lowest is accepted, the reason(s) for this decision is reported to the governing body and included in the minutes of the relevant meeting.
- **D5** All purchases estimated to exceed an amount predetermined by Governors in Appendix F, must be put out to tender, using a form common to all tenderers, on the basis of a detailed description or specification of the goods or services required and in accordance with the procedures set out in Appendix F.
- **D6** Contract specifications, for example cleaning, catering and grounds maintenance, define the service to be provided in terms of its nature, quality standards, information and monitoring requirements and contract review procedures.
- **D7** The school should not enter into any financial agreement with capital implications without the approval of the LA as appropriate. If a lease arrangement is entered, this should represent good value for money⁸.
- **D8** Official, pre-numbered orders are used for all goods and services except utilities, rents, rates, and petty cash payments. Verbal orders should only be used for reasons of urgency or emergency, they must be confirmed by a written order at the earliest possible time.
- **D9** Orders are used only for goods and services provided to the school. Individuals must not use official orders to obtain goods or services for their or others' private use.
- **D10** All orders must be approved electronically on the school's finance system by a member of staff approved by the governing body to be an authoriser.
- **D11** The authoriser of the order should be satisfied that the goods or services ordered are appropriate and needed, that there is adequate budgetary provision and that quotations or tenders have been obtained if necessary.
- **D12** When an order is placed, the estimated cost is committed against the appropriate budget allocation so that it features in subsequent budget monitoring.
- **D13** The school checks goods and services on receipt to ensure they match the order, and the invoice is marked accordingly, and the check is recorded on the school's finance system. This is not done by the person who approved the order.

⁸ You must make sure you comply with the guidance of Gov.UK Leasing for maintained schools - GOV.UK (www.gov.uk). Further guidance on leasing and a leasing assessment form is available from the local authority.

- **D14** Payment is made within time limits specified in law for the payment of debts and only when a proper (original) invoice has been received, checked, coded, and on your finance system for payment. Supplier payment terms and conditions should be complied with, and any late charges will be paid by the school.
- **D15** The school maintains a list of all Authorising officers and what they are authorising officers for.
- **D16** All paid invoices are stored electronically and uploaded to the finance system.
- **D17** The procurement cardholder and transaction administrators (where applicable) undertake their full responsibilities with the card, including adhering to all security procedures, processing transactions on the portal, posting to the school's finance system and processing any disputes. This is completed in accordance with the published Procurement Card Policy and Procedures¹⁶

The financial roles and responsibilities of staff and a list of named Budget Holders can be found in the Financial Procedures document.

E Financial Controls

The Governors have systems and internal financial controls in place to protect the school's resources from loss or fraud to safeguard staff and governors and to ensure that information provided about how the budget is being spent is accurate and timely.

- **E1** The governing body ensures that the school has written descriptions of all its financial systems and procedures in the School's Financial Procedures Appendix K. These are kept up to date and all appropriate employees are trained in their use.
- **E2** The Headteacher ensures financial control is maintained without key personnel through staff training or by arranging job shadowing. Staff and Governors have completed a Financial Management Competencies matrix analysis⁹
- **E3** The Headteacher ensures that duties related to financial administration are distributed so that at least two people are involved. The work of one function as a check on the work of the other and all checks are fully documented.

- **E5** There is a clear audit trail, with all financial transactions being traceable from original documentation to accounting records, and vice versa.
- **E6** Any alterations to original documents such as cheques, debtor accounts and orders should be discouraged. Amendments should be made by cancelling the original document and reissuing.

⁹ You can download the financial management skills matrix for governors from, the "Additional Resources" page in the "Support Notes" section of the DfE SFVS webpages.

- **E7** All accounting records are securely retained when not in use and only authorised staff are permitted access.

- **F7** Cash and cheques are locked away to safeguard against loss or theft.
- **F8** Collections are paid into the appropriate bank account promptly and in full. Bank paying-in slips clearly show the split between cash and cheques and list each cheque individually. The receipt number(s) should also be referenced in the paying in book/sheets when income is banked to provide an effective audit trail between income received and banked.
- **F9** Income collections are banked intact and must not be used for the encashment of personal cheques or for making payments.

The petty cash "float" is currently £2,000 but at high demand times, this can be increased by prior authorisation of the Headteacher and agreement of the Schools Finance Team.

- **N5** The school will immediately inform its insurers, the LA or their agent of all accidents, losses and other incidents that may give rise to an insurance claim.
- **N6** Insurance arrangements cover the use of school property, for example musical instruments or computers, when off the premises. Staff are advised that equipment is not insured if left unattended in a car.
- **N7** Details of all risks insured, and the level of cover provided is detailed in Appendix L.

P Data Security

¹⁶ Internal Audit has advised that it would be reasonable for Governors to have an inventory limit of £100 i.e., only include items with replacement value of £100 in your inventory. Schools may choose to include desirable items of a lower value.

The school is required to process and record personal, financial, and other management data and must keep this secure. Much of this data is held in an electronic format rather than on paper, therefore many of the controls in this section relate to IT (Information Technology) systems and electronic data. Refer to the School's ICT policy & Acceptable use policy in Appendix J.

- **P1** The school, as a Controller, adheres to the UK GDPR and the Data Protection Act 2018, including registering as a data protection fee payer with the Information Commissioner's Office (ICO) and paying the relevant annual fee. The school's use of any electronic or relevant manual systems to process personal data must comply with this legislation.
- **P2** Computer systems used for school management are protected by password security to ensure that only authorised employees have access. Passwords are changed regularly, updated for staff changes, and are not shared.
- **P3** The Headteacher ensures that data is backed up regularly and that all back-ups are securely held in a secure fireproof location, preferably off-site.
- **P4** The Headteacher has established a recovery plan to ensure continuity of financial administration in an emergency.
- **P5** The Headteacher ensures that systems are in place to safeguard school software and data against computer viruses and the virus protection is updated regularly. To prevent viruses being imported, only authorised software is used.
- **P6** The governing body ensures that payment systems used by the school are PCI Compliant, providing the Local Authority with annual assurance of this compliance.
- **P7** The Headteacher must ensure School Finance Team are notified of any leavers holding an e5/CP license to enable the user to be disabled on the employee's contract end date.

Appendix F - Procurement Policy

Introduction

The essence of good financial control in purchasing and contracting is twofold. Firstly, to ensure that value for money is obtained and secondly to minimise the opportunity for fraud.

It is fundamental that competitive prices/quotations/tenders are obtained on a like for like basis, whether the invitation is for goods or services. It is therefore essential to invite quotations/tenders against a carefully drawn up specification. Where the value of the work/services exceeds £10,000 this must always be the case. Specifications must be prepared by persons properly qualified and experienced to do so.

To minimise the opportunity for fraud and to protect the interests of staff it is fundamental to separate the functions of ordering and receipt/authorisation of payment.

Tendering and Quotation Procedure

This procedure is intended to ensure that tenders and quotations obtained by the school are invited and processed in accordance with the standing orders of the School, LA, and all legal requirements. It is intended as far as possible to separate the functions of invitation and selection and protect staff involved.

This procedure covers ALL contracts to be entered into by the school, including annual maintenance contracts.

The headteacher will make sure that all tenders and quotations have the following guidance considered and followed, and if not, using all appropriate steps will share this with the full governing body before rejecting any step of the process or requirements.

- EU procurement directives and the UK regulation ([EU procurement directives and the UK regulations – GOV.UK \(www.gov.uk\)](#))
- Buying procedures and procurement law for schools ([Buying procedures and procurement law for schools – Buying things that are over the procurement threshold – Guidance – GOV.UK \(www.gov.uk\)](#))

These steps should consist of but are not limited to the below:

- assess the market.
- see if you can procure what you need using a DfE recommended framework tool or another framework agreement ([Benefits of using a framework – Find a DfE approved framework for your school – GOV.UK \(find-dfe-approved-framework.service.gov.uk\)](#))
- prepare your contract and invitation to tender.
- consider whether to use the restricted procedure to reduce the number of bids you must assess later or open the procedure to let anyone bid.

Then you must:

- advertise a contract notice using the UK e-notification service, Find a Tender (FTS) ([Find high value contracts in the public sector - GOV.UK \(www.gov.uk\)](https://www.gov.uk)).
- make your invitation to tender and all other documents available electronically from the time that the contract notice is published.
- assess all the bids you get fairly, using the same process.
- choose the supplier that offers best value for money.
- award the contract to the highest scoring bid supplier.

Number of Quotations

For the supply of goods or services: -

- Below £10,000 a minimum of two quotations should be obtained. Quotations may be sought verbally but must be confirmed by suppliers in writing (email is acceptable). Catalogue prices may be used.
- More than £10,001 and less than £50,000. At least three written quotations (email is acceptable) must be obtained based on a specification that succinctly describes the requirement but is not geared to a particular product or service offering. All quotations must be retained²¹ and signed off by the headteacher. and agreed with an appropriate Governor and recorded.
- More than £50,000, you must run your own buying process, inviting suppliers to submit bids if:
 - You cannot get what you need through a framework agreement.
 - you are buying high-value goods and services.
 - appropriate Governor agreement and recorded within the minutes of the meeting.
- More than £214,904 you must run a Public Contracts Regulations (PCR) compliant buying process.
 - appropriate Governor agreement and recorded within the minutes of the meeting.

From 28th October 2024 there is new Public Procurement Legislation comes into force which will have implications for school buyers

Key areas to consider before the new regulations come into force:

1. Understanding the new procurement rules: school buyers should familiarise themselves with the new procurement rules and guidelines outlined in the Act. This includes the revised tendering processes, evaluation criteria, and contract management practices.
2. Taking a strategic approach: the Act encourages a more strategic approach to procurement, moving beyond just compliance to prioritise value for money and long-term outcomes. School buyers are encouraged to develop clear

²¹ Unsuccessful tenders/quotes must be retained for a minimum of one year following completion of the contract. Successful tenders/quotes and supporting documentation showing the decision-making process are retained for six years following completion of the contract.

- procurement strategies aligned with school and trust objectives and consider social value factors.
3. Engaging with suppliers: effective communication and collaboration with suppliers will be crucial under the new Act. School buyers should foster open dialogue, provide clear procurement information, and encourage feedback from potential suppliers. [Get help buying for schools](#) can advise on how best to do this.

Emergency Works

Competition may be waived where Contractors need to be engaged, or materials purchased to conduct immediate remedial works in an emergency. Any action taken must be reported to the Governing body at the earliest opportunity.

Contractors Own Conditions

In cases where a Contract is let using the Contractor's own conditions, typically accepting a quotation, the Responsible Officer (Headteacher or Governing body) MUST satisfy him/herself that the Conditions are acceptable and do not disfavour the school.

Payment

Payment will be made when the work or supply is satisfactorily complete.

Contractors usually make an "interim claim". It is, however, the Contract Administrator's responsibility to value the work. Interim Certificates must be issued in accordance with the Contract Conditions.

Where the Contract includes a lump sum payment this must only be made when the work is properly completed, and proper final account rendered.

In all cases no payments are to be made in advance.

Records

All records should be kept for the appropriate retention period and will need to be made available to appropriate officers of the Local Authority or their agents, which will include but not limited to internal audit, external audit, property services, procurement, finance.

- The school must keep an updated list of contracts and the values of all these contracts
- The school should keep a record of conflict-of-interest record for anyone involved within any Tender/Quotation
- A copy of any quotations and the specification of requirements sent out to receive these quotations.
- Terms of reference for evaluation of quotations and tenders where appropriate.
