

Mark Cupitt

My name is Mark Cupitt. I joined as a parent governor in early 2016 shortly after my daughter joined the Wyre Forest School. I am passionate about trying to help all students within the school reach their maximum potential and this was the reason that I joined as a parent governor.

I have lived and worked in this area all my life. I am a qualified accountant and run an accountants practice within the Midlands. I have over 25 years of experience of working with all types of organisations over that period and developed various skills through industry and commerce which would hopefully benefit the school in order to benefit outcomes for students.

I am a member of the Finance committee.
