

## **Lyndsey Kirby**

My name is Lyndsey Kirby and I joined the Governors in May 2018. I represent the staff of WFS and also have a position on the Standards and Curriculum Committee. I have lived in Kidderminster all of my life and attended local university for my studies. I am currently engaged and planning a wedding for April 2019, alongside my teaching and other hobbies. I have two dogs called Coco and Misty who I absolutely adore.

I have always wanted to be a teacher and was lucky enough to complete my Post Graduate Diploma, specialising in Early Years, at The University of Birmingham. I currently work at Wyre Forest School after moving from a mainstream school, based in Stourbridge, where I taught Year 3. After having a number of children with additional needs during my time in mainstream, I knew this was something I wanted to explore further. I have been teaching at Wyre Forest for nearly two years and have thoroughly enjoyed my time here.

In the future I am hoping to complete my Masters in Teaching by returning to The University of Birmingham to complete a final dissertation based on my own research.
