

Newsletter Friday 4th May 2018

Menu Week: Week beginning 7th May will be **Week 3**

Please remember school is closed to all staff and pupils on Bank Holiday Monday, 7th May 2018

Message from Mrs Garratt

As you have probably heard in the press, school budgets are becoming increasingly tight. We at Wyre Forest are now experiencing a very challenging school budget and this may have an impact on staffing and resources going forward. We would therefore appreciate that any little contribution, be it for cooking ingredients, trips or supplying wipes etc be given to us. As a famous supermarket says; Every Little Helps!!!

Message from the School Nursing Team

With this weeks' newsletter, there is a letter from our School Nurse coming home with every child. Any queries, please contact Kate Randle or Emma Barnes on 01562827785, thank you.

8H Art Work

8H have been creating their own street artwork in the style of 'Stikman'. They have learnt about the artist's trademark characteristics and how to express different emotions with little detail. The results have been fantastic!

Lunchtime Play Club

In Play Club at lunchtime, we have been celebrating Spring. We have been reading books and looking at photos of Spring, we have been playing musical instruments along to new songs about Spring and sharing how we have been enjoying the Spring weather at the weekends.

Well Done Aidan

Aidan from 9FS took part in a Boccia competition in Dudley at the weekend, and won a medal. Well done Aidan!

WFS Hosts 'Archery Arrows' !!!

WFS hosted Archery Arrows this week and 10 local Primary Schools came to our school to participate. ASH Class were lucky enough to be chosen to represent Wyre Forest School during the event. All of the children thoroughly enjoyed showing off their archery skills that they had learnt in their previous PE lesson.

9B News

As part of our 'We Are Artists' ICT module Class 9B are working on 'Tessellation'. They designed the shapes first then drew them on MacBooks by inserting, subtracting and uniting shapes. They were then able to duplicate them and change colour and create tessellating patterns.
