

Introducing babyballet Shine...

A dance class specifically for children with Special Educational Needs and Disabilities.

My name is Emma and I've been a babyballet franchisee and teacher for the past 11 years. I have built up a fabulous team of teachers who are as passionate as me about the benefits that dance can bring to all children. Our lovely babyballet® shine teacher, Miss Natalie, has a daughter who is on the Autism spectrum and she found that as much as she wanted Maggie to be able to access babyballet® classes (as she loves music and dancing), she also understood that the environment wasn't quite right for her. Miss Natalie has experience working with children with special educational needs and disabilities and she is extremely passionate about delivering a class for children who want to dance but need a more relaxed environment in which to do so. We created babyballet® Shine which is a class specifically for children who traditionally wouldn't have accessed these classes, whilst still maintaining the babyballet magic.
