

WFS Young Leaders

We took three of our Year 10 pupils to the Wyre Forest Schools Partnership, Young Leaders course in Stourport, with a view to training them up to become playtime leaders and ambassadors for our new School Sports Council.

The aim of this project is to help engage our younger pupils at playtime with some really well thought out games and activities, that will give them the skills to socialise and share whilst having lots of fun at the same time.

It helps that the activities are delivered by our young leaders as it helps to develop self esteem and confidence in our older pupils; it gives our younger pupils a role model to aspire towards and provides yet more community spirit through our wonderfully warm and giving school.

On the day, there were many pupils from other schools going through the same training. After a short period of instruction, our pupils had to deliver some activities to small groups of pupils from Burlish Primary school, a daunting task, but they were incredible in the way they were able to explain, manage and keep safe such little ones whom they had only just met! They were a credit to themselves and the school.

A huge congratulations to Jessica, Megan and Jenson! Well done, our WFS Young Leaders.
