

It was
national
safer
internet day
on Tuesday

We had parents attend our safer internet use workshop at Russell House with Steve and Bev. Steve provided some good strategies for working safely with the internet at home and you can find more info about this from Steve at the following e mail...
scronin@wfs.wores.sch.uk

Pupils enjoyed looking at how to be safe on the internet and how we need to be careful with what we post including photographs and also what we access. Classes talked about safety online and created their own internet safety message.

Every class completed a safer internet canvas
